

# The Alpaca Fleece-filled Bird Nesting Ball®

Provide all-natural alpaca nesting material for backyard birds. Alpacas, cousins of the llama, have fleece that is stronger, warmer and lighter in weight than wool. The fleece is hypo-allergenic and comes in 22 natural colors and numerous shades. The 4" nesting ball will offer birds a soft, insulating material with which to line their nests. When exposed to the elements, the fleece dries back to its natural, soft state.

Each nesting ball is individually created with fleece from alpacas raised on our farm. Balls are attractively packaged in cellophane bags.

Contact us for special pricing for shipping on larger orders.

"Abby" is a nesting ball fleece donor living on the farm at Sunny Meade Alpacas in Swanton, Ohio.
